

Network Architect

Cambridge

Are you looking for a role where your service provider expertise and extensive hardware knowledge can make a real difference? As the Network Architect you will be responsible for active maintenance of our product portfolio, developing existing as well as new products and services by identifying core needs of both our existing client base and prospective future clients.

About Bridge Fibre

Bridge Fibre has been working with our customers to make sure that their Connectivity, Hosting and Telephony needs never stand in the way of them achieving their goals. Our two founders; Andrew and Daniel have created a company with staff that work together, learn from each other and support each other through all levels of the company. At Bridge Fibre we encourage autonomy, self-development and give you a friendly and supportive environment to work in to allow you to provide the very best levels of support, advice and partnership with our customers.

The role

- ▶ Responsible for full product development lifecycle, from initial scope and design through development to production release and ongoing maintenance.
- ▶ Accountability for end-to-end service to ensure SLA's are met and service quality is meeting the customer's requirements.
- ▶ Develop sales strategies alongside sales leaders, providing supporting documentation and training
- ▶ Ensure release processes to business / commercial teams and to technical teams are fit for purpose and actively followed so that product enhancements are successfully transitioned from development into production.
- ▶ Develop and maintain strong commercial relationships with suppliers and key influencers in associated verticals.

What we need from you

- ▶ Expert in Service Provider networks, with demonstrable experience working with MPLS, BGP, OSPF and other associated technologies.
- ▶ Strong hardware knowledge including routing & switching platforms from Cisco, Juniper & Mikrotik
- ▶ Demonstrable experience of owning and managing a product line, including forecasting, Product design & development, P&L responsibility etc...

What's in it for you?

- ▶ At Bridge Fibre, we are a family. We're a friendly bunch with passion, ambition and we thrive on teamwork, learning & development
- ▶ We're committed to your personal career growth and we'll provide you with opportunities to further your technical skills and progress within the business
- ▶ Profit share, BUPA health care & 5% contributory pension
- ▶ 33 days holiday (including bank holidays), increasing every 2 years you work with us
- ▶ A wide variety of company socials

If this sounds like you, then start your journey with the Bridge Fibre family by sending your CV and cover letter to jobs@bridgefibre.co.uk
